SafeAssign Release Notes: May 2014

Building Block Name: SafeAssign

Date Released: May 21, 2014

Released by: SafeAssign Central Services Update

Minimum Learn Version

All Blackboard Learn 9.1 Releases using SafeAssign

Description

The SafeAssign Originality Report has been updated in the following ways:

- Each source now has a color unique to the source. Text matching the source is highlighted in the unique source color. There are a maximum of 30 different colors. This matches the maximum of 30 different sources.

- By default, all citation source highlighting is on. Instructors can click **Show/Hide All Highlighting** to turn source highlighting off and on for all sources at once.

- The report layout has been improved for narrow screens. The report information and citations now appear at the top of the submission when instructors reduce the width of the viewing area.

- Instructors click **Select Sources and Resubmit** to determine which sources they want to include in the next report. By default, all sources are included. Instructors can clear the check box for each source to exclude from the results. This behavior is the reverse of previous releases.

- The page instructors are redirected to after resubmitting a paper has been updated to be more in line with the styling of the new report.
