Building Block Installation

The Building Block was released through Software Updates on Tuesday, October 15, 2013 at 5PM US Eastern (GMT -4). A new version of Software Updates will appear as a Building Block update in the Software Updates module within 24 hours. If needed, the Building Blocks may also be [downloaded](#).

Resolved Issues

- Thread contention caused by Spring-Java charset lookups during communication with the Cloud.
- Courses missing from People area. Courses are now force synced when Cloud Profiles is turned on.
