Collaborate Ultra Resolved Issues - Feb 2016

The following issues from the previous known issues have been resolved.

Resolved Issue	Status
----------------	--------

Content Sharing Related

Whiteboard with old data is initiated when second user initiates the Whiteboard.

- Fixed Display and Function Related The chat entry field for Windows Chrome users doesn't automatically resize after entering long text. Make the window smaller then bigger again to resize the field.
- Fixed Video Roster Layout briefly shows additional participant when new user speaks.
- Fixed Microsoft® Edge Related PPT/PPTX/PDF thumbnails are displaying as white squares in Edge 20 browsers. Edge users need to upgrade to Edge 25.
- Closed - Fix Not Planned Recording Related At times, app share quality is poor in recordings.
- Fixed Temporary environmental issue causing some Ultra recordings to be inaccessible.
- Fixed Ultra recording is showing a blank screen where there should be a PowerPoint being shown.
- Fixed Session Administration System (SAS) Related Attempts to modify users uploaded using CSV results in errors.
- Fixed Last day occurrence is not created When "End On date" option is used for a particular scenario.
- Fixed When creating a session the Calendar and Time icons are not grayed out when *No End Date* is selected.
- Scheduling functionality has been moved to the Ultra Scheduling user interface (UI) When users on Safari browsers delete a session the Edit panel does not close.
- Scheduling functionality has been moved to the Ultra Scheduling UI When users update the time on some recurring sessions the new time does not show in error messages users see when trying to join the session at the original time.
- Scheduling functionality has been moved to the Ultra Scheduling UI When users create new sessions and save without editing, the "X" button deletes the session if a user opens the Edit panel of the New Session again and closes it.

- Scheduling functionality has been moved to the Ultra Scheduling UI When users create new sessions and close the edit panel using the "X" button without manually saving, the New Session is still saved.
 - Scheduling functionality has been moved to the Ultra Scheduling UI When users click the link of a recurring session before the next session begins the user does not get a message that tells them the session hasn't started yet.
 - Scheduling functionality has been moved to the Ultra Scheduling UI When users create a session "New Session" does not appear in the title field.
 - Scheduling functionality has been moved to the Ultra Scheduling UI When users add attendees to the session and return to the create/edit session page, the session name and date range show the default values for a moment before returning to the values set by the user.
 - Scheduling functionality has been moved to the Ultra Scheduling UI When a user gives a session a name with more than 100 characters the Starts and Ends fields move in the create/edit panel.
 - Scheduling functionality has been moved to the Ultra Scheduling UI The naming convention of the downloaded MP4 recordings is not consistent.
 - Scheduling functionality has been moved to the Ultra Scheduling UI The same user can be added to a session more than once.
 - Scheduling functionality has been moved to the Ultra Scheduling UI Wrong user count is displayed in File Summary for Manager user
 - Scheduling functionality has been moved to the Ultra Scheduling UI When users run an export for session attendance, the Active For column is displaying 0:00:00 for most attendees.
 - Scheduling functionality has been moved to the Ultra Scheduling UI When a Moderator user opens the My Recordings page it shows the last months recordings. If you select a date and leave the Title field blank you get the message "{displayRecordingsSearchResultsTable} " where the search results should be.
 - Scheduling functionality has been moved to the Ultra Scheduling UI Telephony Related SOAP sessions not honoring login group telephony setting.
 - Fixed WebRTC Related There is a 2-8 second delay of audio and video for individual participants.
-
