Collaborate Ultra Resolved Issues - Mar 2016

The following issues from the previous known issues have been resolved.

Resolved Issue	Status
Notifications associated with multiple users leaving the session at the same time were only displaying in English.	
Fixed Sessions launched from an LTI context on an iPad were not working.	
Fixed The Scheduler UI would hang if left open for a long time and the credentials expired.	
Fixed Internet Explorer 11 was not using the set language for Collaborate sessions.	
Fixed Ultra LTI UI was not launching with Chrome browser language setting set to Spanish (Latin American).	
Fixed Application sharing sync was far behind audio when the user's network connection was in a lower bandwidth mode.	
Fixed Video sharing was not working when the session setting was originally set to disable video but then changed to enabled during the session.	
Fixed Occasionally the Chrome browser was not sending audio even when the microphone was on and showing activity.	
Fixed The user role displayed in the Scheduler UI session invitation screen was only appearing in English.	
Fixed Background text missing or changed when sharing presentations.
