Collaborate Update - Nov 2016

Here's everything you need to know about the **November 2016 (v16.11)** release of Blackboard Collaborate with the Ultra experience.

Available November 5, 2016

Collaborate with the Ultra experience v16.11 will be deployed to all data centers on Saturday, November 5.

To learn more, see the [Collaborate Support Bulletin](#) (available in English only).

What's new and improved

The November 2016 release is a **maintenance** release. In this release we focused on resolving issues to continually improve your experience. We also turned on HTTP playback for recordings.

Browser support update

Having trouble playing recordings in your Chrome™ and Safari® browsers? Now you can play videos with or without Flash® being available. In this release we've allowed HTTP playback for all recordings when Flash is not available.

User experience update

Profile pictures for the active speaker now display in recordings when that person's video is not turned on.

What's fixed
