Blackboard Help

Collaborate Ultra Resolved Issues - April 2017

The following issues from the previous known issues have been resolved.

Resolved Issue	Status
Very occasionally, on large sessions (over 100), some users reported problems with audio and video.	Fixed
WiFi routers were not handling media packet prioritization correctly, resulting in dropped end-user connections. To learn more see the hot fix bulletin on Behind the Blackboard (available in English only)	Fixed
Improve color contrast in the Scheduler user interface.	Fixed
Participants who are logged in occasionally see moderator controls in the Participants panel.	Fixed
When moderators select the options button for a participant in the Breakout Groups panel the menu is partially covered.	Fixed
