

Web Community Manager 2.24 Release Notes

New or Changed Functionality or User Experience

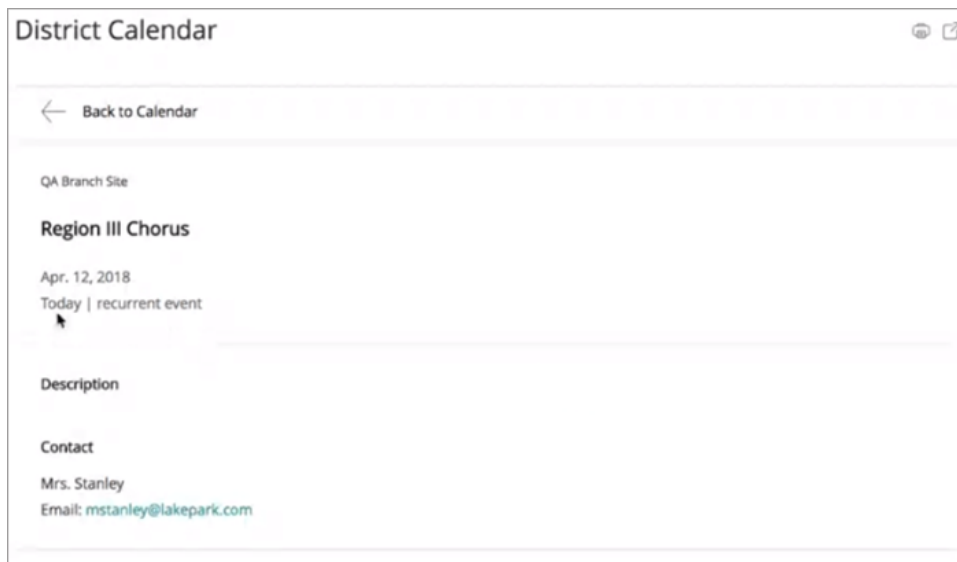

Updates to Calendar

We've made some updates to the display in the calendar based on your feedback. We have moved the date and hour of the event to the end. This allows you to preview the title of the event.

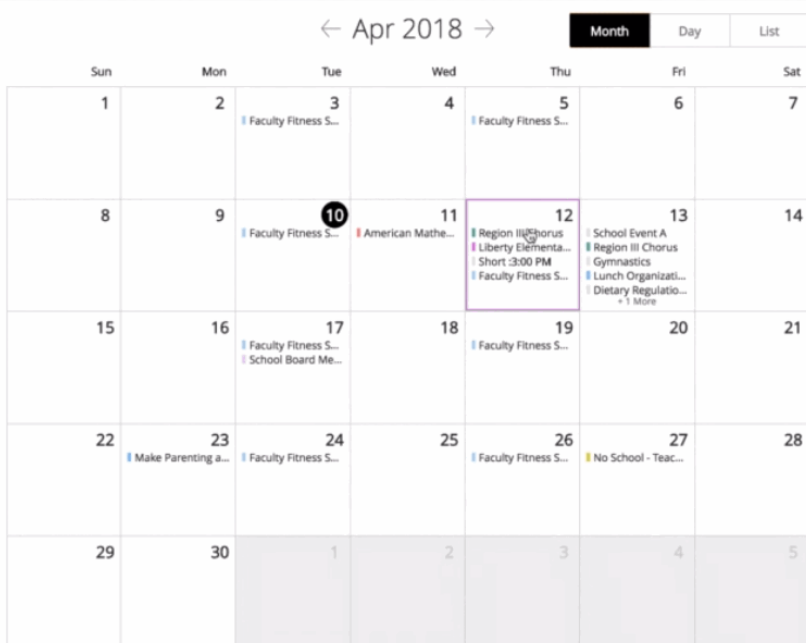

We've also changed the title for "All day" events to display "Today." Now recurring events, events that don't have a start or end time, or are a combination of the two, will display under the "Today" heading instead of "all-Day."

Web Community Manager 2.24 Release Notes

Finally, when viewing the calendar in the Month view, we've included the ability to select on the title of an event and see all the event details with one click.

Resolved Issues

We have resolved the following issues in this release. We've listed the issues as they were originally entered and in the order that they were reported.

<i>Functional Area</i>	<i>Subject</i>
Accessibility	Fixed an issue where users were unable to use the down arrows to access the channel menu list.
Accessibility	Fixed an issue where comment links were being flagged as redundant links.
Calendar	Adjustments to the calendar for daylight savings
Calendar	Fixed an issue with importing a calendar csv with an incorrect date.
Breadcrumb	Fixed an issue where the breadcrumb wasn't appearing when the left navigation has a top page that is redirected.
Groups	Fixed an issue where both tabs were showing on the landing page of Moderated Groups.
TinyMCE editor	Fixed an issue where editing an email link using right-click in TinyMCE causes the https to be added to the link causing it to stop working.
File library	Fixed an issue where users were unable to sort alphabetically in the file library with a large number of files.
Template	Fixed an issue where quotes were causing template rendering issues
Table app	Fixed an issue where double clicking on scrollable content pushes the focus to a different area of the page.
Table app	Fixed an issue where users were unable to see all the rows in NPE.
Table app	Fixed an issue where the alignment style wasn't being applied correctly on save.
Table app	Fixed an issue with the medium editor not showing in the Edge browser.
Table app	Made the table app responsive to its container.

Technical Requirements

Here are the [Web Community Manger End-User Technical Requirements](#).
The [Blackboard Privacy Policy](#) updated to reflect the Blackboard brand.
