Web Community Manager 2.27 Release Notes

New or Changed Functionality or User Experience

We dedicated our time to providing the best back-to-school experience for our clients, so there's no new or changed functionality in this release. Welcome back!

Resolved Issues

We have resolved the following issues in this release. We've listed the issues as they were originally entered, and in the order that they were reported.

Functional Area	Subject
Image	Accent Image URL field truncating at 90 characters when pasting-in relative URL.
Table App	For pages with a layout having more than one column, the last table on that page was forced into mobile view.
Content Moderation	"Send for Approval" button was appearing in 2 situations when it should not.
Calendar	Events pushed to collection show in new calendars added to workspace that has been deleted from collection.
Dashboard Stream	Headline accent images are getting set to a width of 300 px in the stream

Technical Requirements

Here are the Web Community Manger End-User Technical Requirements.
The Blackboard Privacy Policy updated to reflect the Blackboard brand.

Refresh Your Cache

It's always a good practice to clear your browser cache on a regular basis. Refresh your Cache shows you how to clear your cache in any browser.

Resources and Materials

As always, you can find resources and materials related to this release as well as to the many features and functions on the Blackboard Help website. Core Resources and Hot Help Topics, Apps Showroom, Training and Creative—we've got the information you need to succeed with your Web Community Manager website.
