Release Highlights

This version is a maintenance release to address bug fixes. This version is a cloud services deployment, which will appear immediately for all users.

Some of the main highlights of this maintenance release include:

- **District Management:** District administrators can now see and manage institutions within their district, set sharing settings across their district, and set default copyright and standards sets for their users.
- **Search Enhancement:** Search results now show the underlying file type such as audio, movie, text, PDF, presentation, spreadsheet, or Word file.
