

xpLor Update: January 2014

Release Information

Launch Date: January 15, 2014

Requirements:

- Blackboard Learn requires Service Pack 10 and later. To learn more, see [Blackboard Learn Requirements](#).
- ANGEL requires 8.0 Service Pack 4 and later. You can request integrating your ANGEL learning environment with xpLor by submitting a ticket through Behind the Blackboard or contacting your ANGEL Engagement Manager. To learn more, see the [xpLor announcement for ANGEL](#).
- Our partners at Netspot, a Premium eLearning Technology Services Partner to education organizations within the Asia Pacific region and an official Moodle Partner, support core Moodle features (version 2.3 or later). To learn more, contact [Netspot](#).
- Blackboard Open LMS' Joule 2 platform. To learn more, see the [Joule Summer 2013 Release Brief](#).

Release Highlights

This version is a maintenance release to address bug fixes. This version is a cloud services deployment, which will appear immediately for all users.

Some of the main highlights of this maintenance release include:

- **Group Management:** Group administrators can add or remove institutions that are part of their group. Institutions that have been added by an administrator can accept or decline the invite from the group admin.
- **Delivery Settings:** Users can now define their delivery settings when creating a resource. The delivery settings will be used as the default when adding the resource to a course. This feature was already present with Quizzes.
- **Discussions:** Users can now define whether a resource has a discussion board available or not.
- **Versioning:** The Version Panel has been redesigned so that users can now view more versions of a resource.

Resolved Issues

- **XPLR-2105:** Discussion activity setting / instructions issue.

- **XPLR-2205:** Cannot delete the collection picture after upload.
- **XPLR-2292:** Can't upload file to the file editor in IE8.
- **XPLR-2321:** "Students cannot reply to top-level posts" setting not working for discussion resources
- **XPLR-2334:** Importing assignment from 1.2 Common Cartridge does not create xpLor Assignment resource; instead, creates xpLor File resource.
- **XPLR-2338:** New insert icon used for inserting files.
- **XPLR-2372:** Logout occurs before large file imported.

Known Issues

Identified known issues are added to the [Known Issues](#) list, and we welcome your feedback on issues that you may encounter. Please submit a ticket to your Client Support representative.
