

Book List App User Guide

Use the Book List app to create a list of required books for your class. You can use this to outline a list of required reading for your course, provide examples of additional reading materials, or outline a list of books for book reports. You can also use the Book List app to highlight different reading comprehension level books.

Add the Book List app

New Book

Enter the title, author, and publishing year for your book. If you want, you can enter additional information and a start and end date.

* Book Title:

* Author:

Year Published:

Description:

Rich text editor toolbar with icons for undo, redo, bold, italic, underline, bulleted list, numbered list, link, unlink, insert link, insert image, link, unlink, and refresh.

p

1. Enter the general information, including the *Book Title*, *Author*, *Year Published*, and *Description*.
2. Add the *Classification* and the *Code* (optional).
3. If you have a cover image of the book, you can upload the *Image* and enter the *Height*, *Width*, and *Image Alt Text*.

You can also set how long to display the book in the list by entering a *Start* and *End* time in *Display Dates* setting.

The screenshot shows a form with the following fields and options:

- Classification:** A text input field.
- Code:** A text input field.
- Image:** A text input field with a "SELECT FILE" button below it.
- Height:** A text input field.
- Width:** A text input field.
- Image Alt Text:** A text input field.
- Display Dates ?**: A section with a help icon.
- Start:** A text input field, a dropdown menu, a colon separator, and another dropdown menu.
- End:** A text input field, a dropdown menu, a colon separator, and another dropdown menu.
- Activate on my page**

Set additional options

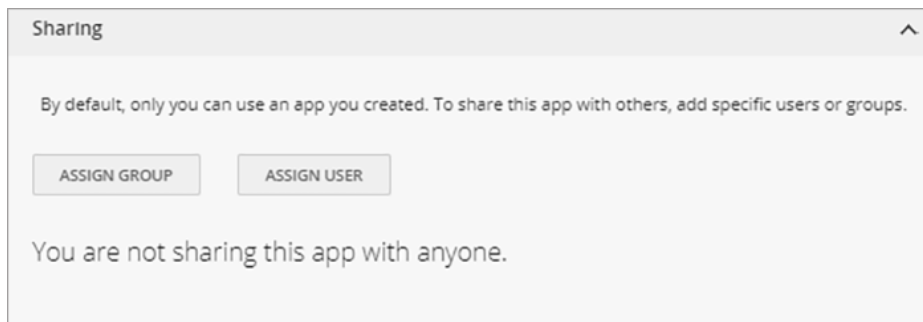

The screenshot shows the configuration page for a "Book List App" with the following sections:

- Book List App** (Title)
- Edit** and **Options** (Buttons)
- General** (Section Header)
- * App Name:** A text input field containing "Book List App".
- Description:** A text area.
- Show the app name on my page.**
- Display Settings:** A section with a help icon and a note: "You can display every active record in this app on your page, or a specific number of records at a time."
- Display all active app records**
- Display a specific number of active app records**

1. Select *Options*.
2. Enter the *App Name* to use as the title.
3. Enter the *Description*.
4. Select *Show the app name on my page* to display the updated name on your page.
5. Choose the *Display Settings* for the number of books to list.

Sharing and social settings

Want to share your content with another group or user? From the *Sharing* tab, you can choose groups with whom to share your content.

The screenshot shows a 'Sharing' settings panel. At the top, it says 'Sharing' with an upward arrow icon. Below that is a descriptive sentence: 'By default, only you can use an app you created. To share this app with others, add specific users or groups.' There are two buttons: 'ASSIGN GROUP' and 'ASSIGN USER'. At the bottom, it states 'You are not sharing this app with anyone.'
