

Davis Demographics SchoolSite Locator App User Guide

Help your visitors find their school. With the Davis Demographics SchoolSite Locator app, visitors enter their address and view the school boundaries for their district. This helps them determine the school boundaries they live in, and which school their students would attend.

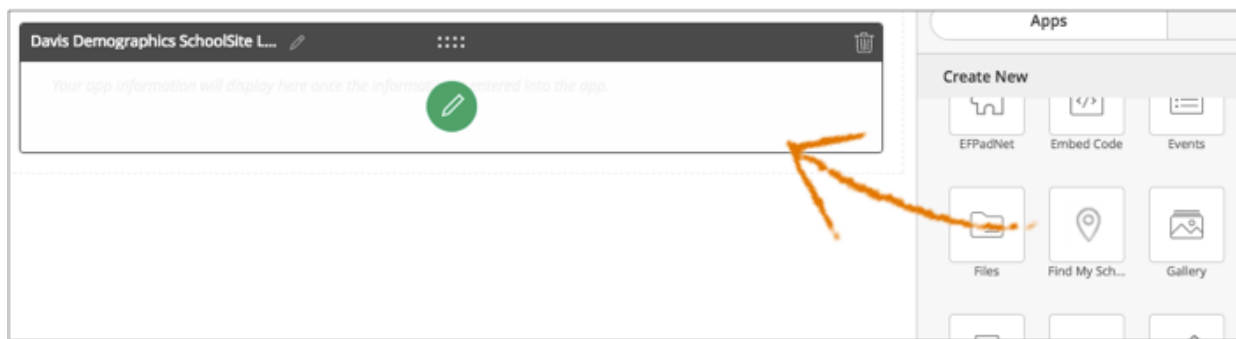

Register with Davis Demographics

SchoolSite Locator is a subscription service from Davis Demographics. If your district already has a subscription to SchoolSite Locator, paste your unique District code from your URL into the app. To learn more about the app or to obtain a subscription, select *Register with Davis Demographics* and fill in the requested information. A member of the Davis Demographics team will contact you.

The Davis Demographics SchoolSite Locator app is a Web Community Manager custom app that must be downloaded to use. Please contact your Site Administrator for additional information.

Add the Davis Demographics SchoolSite Locator app

Drag the *Find My School* app onto your page.

1. Select *Edit*.
2. Paste the *District code* you received from Davis Demographics.
3. Enter the *Description* instructions for visitors to type their address to search for schools in their location.
4. Select *Save* when finished.
