

Wiki App User Guide

Use the Wiki app to create collaborative content for your website. Create a wiki at the start of a topic or lesson, for example, and have students add information to it as they learn it. You could use the wiki as a collaborative learning tool where students could create learning wikis and teach each other about a topic.

This wiki is meant to be a collaboration throughout the Paris Unit. As we learn things about Paris, its monuments and its history, fill out the wiki with new facts. Remember you are to post at least 5 new facts before the unit is over in order to receive credit for this wiki.
