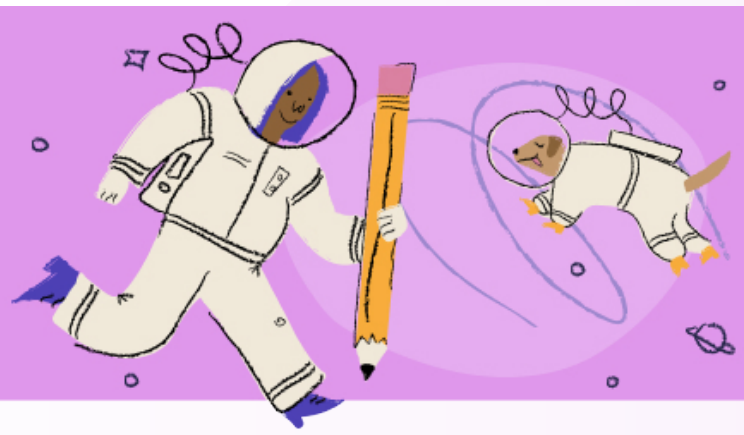
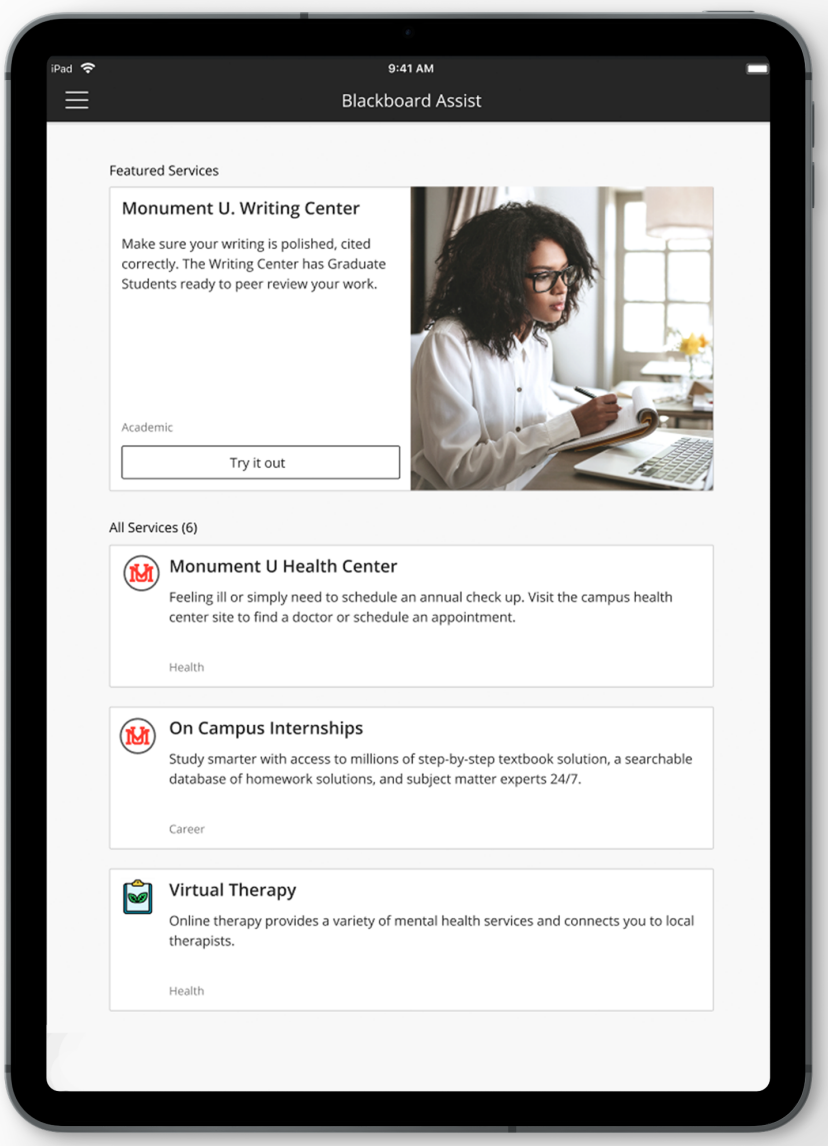
Blackboard Assist

Help your students succeed by connecting them with the resources you have available for them.



Blackboard Assist helps students when and where they need it with personalized support from your own institutional resources, Blackboard solutions, and third-party educational services. Easily promote your resources that help drive engagement and persistence within Blackboard Learn.



Frequently Featured Student Services

Put critical student services at their finger tips 24/7

ACADEMIC

Provide vital academic services to your students where they need it most alongside their Blackboard classes.

HOUSING AND TRANSPORTATION

Keep your students informed of critical housing and transportation related services designed to keep their essential needs met.

STUDENT LIFE

Engage students through on and off campus events, peer networking opportunities, and ongoing services from a single portal.

HEALTH & WELLNESS

Raise awareness of critical health and wellness services as students move across online and on ground formats.

CAREER READINESS

Prepare your students for what's next by helping them find and access career readiness services.

ADVISING

Assist students and their growth at your institution. Help advance their life and career goals with your advisory tools and services.

Blackboard Assist, planned for launch in Q4 2020, will be available to global higher education clients on the SaaS Deployment of Blackboard Learn, and carries no additional cost to your institution. Third-party providers may charge a fee with their associated services. We encourage you to start thinking about what types of resources you will surface via Blackboard Assist.
