

Great news!

You can access my class from your phone with the Blackboard app. You can view course content, get your grades, complete work, and participate in class.

The Blackboard app will keep you up-to-date no matter where you are:

- Stay on task with push notifications and a prioritized list of upcoming activities and due dates.
- View test, assignment, and course grades as soon as I post them.
- Participate in discussions and take tests and assignments.
- Attach assignment files using Google Drive, Dropbox, and OneDrive.

Ready to download the Blackboard app?

1. Access the [Apple](#), [Google](#), or [Microsoft](#) app store and search for *Blackboard*.
2. Install the Blackboard app on your mobile device.
3. Open the Blackboard app and search for the full name of your school.
4. Sign in with your existing Blackboard username and password.

If you have questions about how to use the Blackboard app for this class, please let me know!
